

# EXPERIENCE IN PROJECT DELIVERY

## EXPERIENCE IN PROJECT DELIVERY CONTINUED

### KALUMBURU WA, CLIENT: DHW WA, 2007

Ri-con Contractors was required to construct seven single detached houses and three pairs of duplex units in the Kalumburu community, a modern aboriginal community entirely run by the Kalumburu Aboriginal Corporation.

Kalumburu is located in far northern Western Australia, over 500kms northwest of Kununurra.

Purchasing and logistical issues were the main challenges in this Project as all goods and materials had to be transported by barge from Darwin. The Company's builder's camp for employees and contractors was capable of being set up and dismantled in a single day and was 100% self sufficient, incorporating a kitchen, ablution block, office, dry store, accommodation, generators and water bladders.

#### SUMMARY:

Contract value: \$ 3.9m

Duration: 34 weeks
