## QUALITY SYSTEMS

RI-CON CONTRACTORS MAINTAINS A QUALITY SYSTEM CERTIFIED TO ISO9001:2000 FOR THE PROVISION OF BUILDING DESIGN AND CONSTRUCTION SERVICES. WE USE THIS QUALITY SYSTEM AS A MEANS OF ASSESSING AND IMPROVING PERFORMANCE IN ALL ASPECTS OF OUR OPERATIONS.

The Company has a team of experienced builders and Project Managers capable of delivering a product to the satisfaction of our clients regardless of the region's remoteness or difficulty of the location. All personnel are committed to supporting the Ri-con's quality health and safety management practices.

To maintain quality standards, the Company's procedures are regularly reviewed to ensure the system continues to be the most appropriate for its business and is effective in achieving its objectives. The achievement of quality objectives is a key aspect of operations and our aim is to complete all projects on budget, on time, to specification and to exceed expectations.

Current performance indicates that the quality system has assisted Ri-con to achieve its objectives, to the extent that it can tender for work in the remote areas of other States.

In essence, our Quality System allows measurement and assessment of performance and a culture of continual improvement.
