

THE REMOTE FACTOR

> THE REMOTE FACTOR

MOST COMPANIES PRIDE THEMSELVES ON SOMETHING NEW THAT THEY BRING TO THE MARKET PLACE, AND THAT PARTICULAR ABILITY IS WHAT MAKES THEM DIFFERENT FROM THE REST.

Ri-con Contractors do not see themselves as just contractors, there is far more that motivates the Company's Directors and staff to be the 'specialists' and the most successful contractors at remote area construction.

A passion for the land and the people and a burning ambition to take on and to conquer. If it is said it cannot be done, stand up and commit yourself and your resources. It takes a special group of men and women who will always stand together and guarantee the best quality, on time, and on budget.

The main reason we are so successful in delivering successful projects in these areas, is because of our wealth of experience.
